

WEEKLY MARKET SUMMARY.

New York, Monday, July 19, 1853.

The Wholesale Produce Markets have been moderately active for Flour at uniform prices. Sound lots of Wheat and Corn have been scarce, and in request at full rates. Most of the available supply of each has consisted of unsound or inferior lots. The principal inquiry for Flour and Corn has been for home use. Shippers have been the heaviest purchasers of Wheat. Rye and Barley were quiet, at unchanged figures. Oats have been more freely offered than they were required by buyers, and prices have tended downward.... Cotton, Coffee, Sugars, Rice, Provisions, Linseed Oil, and Tallow have been more sought after, generally at advancing rates.... Hay, Hops, and Tobacco have been in fair demand at our quotations.... Naval Stores attracted less attention.... Wool has been moderately inquired for.... A partial revival of demand from distant country buyers for Fall Dry Goods has taken place during the week. The general anticipation is that the trade, this season, will not be as heavy as usual in late years. The Dry Goods imports during the week amounted to \$2,203,843, against \$5,348,103, the corresponding week of last year.... The value of the imports since January 1 reached \$24,042,761, against \$55,567,815 the same week last year.... The movements in other commodities were moderate, and unproductive of any remarkable alterations.... We append a revised list of the closing quotations for the leading articles:

The Country Produce Markets have not varied much during the week....Gooseberries are advancing. Raspberries, Blackberries, and Huckleberries tend downward. Peaches remain about the same. The demand for domestic fruit is good....The new Potatoes now in come mainly from Norfolk, Long Island, and New Jersey. Green Peas are dearer. Turnips, Beets, Cucumbers, Squashes, and Salad are cheaper. Green Corn is arriving from New Jersey. Cauliflowers are nearly out of market. Some receipts of Okra are reported. The inquiry for Vegetables continues fair....Eggs continue to advance, influenced by diminished receipts....Poultry is plenty and dull. An advance on last week's prices of Woodcock, which are less plenty, and the receipt of some Snipe and Plover, form the only noticeable changes in the way of game.
